EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mark R. Kendrick on December 20, 2004.

The application has been amended as follows:

In the claims:

In claim 10 (page 8, line 12), "the capabilities inputting the audio signal from" has been changed to --the capabilities of inputting the audio signal from--.

In claim 19 (page 13, line 6), "an external editing system to received edited" has been changed to --an external editing system to receive[[d]] edited--.

In claim 26 (page 15, line 1), "An audio system capable of applying different modes" has been changed to -- An ~~audio system~~ apparatus capable of applying different modes--.

In claim 27 (page 16, line 1), "An audio system capable of presenting different" has been changed to --An ~~audio system~~ apparatus capable of presenting different--.

Reasons for Allowance

1. Claims 1-27 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Independent claims 1-8, 10, 13, 14, 16, 19, and 25-27 have been carefully considered. Prior art of record does not teach a system, apparatus and display method for processing an audio signal inputted from different types of signal sources with visual indication of the signal sources by labels; the audio system having a main section that provides the capabilities of processing the audio signal; an editing section that is physically separate from the main section, which is used for editing display data representative of labels corresponding to a capability of processing the audio signal; a display section separate from the editing section; and a selecting section for selecting one type of different types of signal sources to input audio signal wherein the selecting section, display section and storage systems are located in a first apparatus and the different types of signal sources are physically connected to the first apparatus through external device connection interfaces not including a radio frequency interface and separate from a personal computer connection terminal.

Humpleman teaches a method for controlling diverse home devices. A home device connected to a home network displays user interface data. A user may use a computer for editing information displayed in a home page. Humpleman does not

teach an audio system for processing an audio signal inputted from different types of signal sources with visual indication of the signal sources by labels; the audio system including a selecting section for selecting one type of different types of signal sources to input audio signal wherein the selecting section, display section and storage systems are located in a first apparatus and the different types of signal sources are physically connected to the first apparatus through external device connection interfaces not including a radio frequency interface and separate from a personal computer connection terminal.

Sussman teaches a portable audio system for managing and cataloguing an inventory of audio and audio-visual recordings. Sussman does not teach an audio system for processing an audio signal inputted from different types of signal sources with visual indication of the signal sources by labels; the audio system including a selecting section for selecting one type of different types of signal sources to input audio signal wherein the selecting section, display section and storage systems are located in a first apparatus and the different types of signal sources are physically connected to the first apparatus through external device connection interfaces not including a radio frequency interface and separate from a personal computer connection terminal.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
